Why is the Biden laptop back in the hands of the FB-I? Who've had it for a year+ and already stated they believe it's "russian disinfo".

The USSS has the TOP systems to investigate child abuse/trafficking, often used by the FB-I and other agencies, and since this "issue 🤔" 🔗

involves a "Presidential candidate" and their family, you would think the Secret Service could at least do a parallel investigation. 🤔 🤔 🤔

Im sure the FB-I will SCRUB any connection on that laptop that may come back to them and their "operations to control people".

 12/ One of the best things out of @ericries's Lean Startup is the concept of "vanity metrics" - unimportant, inflated metrics that don't have much to do with business value. But the effects of using them are different when you're a startup versus a big co.

 13/ For big, established companies, focusing on vanity metrics is silly but not harmful. Everyone's thrown up a huge number to celebrate for an offsite. I get it. But for startups who are pre-product/market fit, it can lead down a path towards

The civil case was away for me to document what they were doing and get things on the record. RR DOJ/FBI, had wired the attorney client Booth so they could hear everything. Illegal surveillance just like they were doing to everyone else.

James Bredar, the exact same judge in my criminal case, this civil case, and the case against the BGF gang, ruled on all three cases. JUDGE BREDAR acknowledged in my criminal case that illegal surveillance was rampant, and sealed it.

In the civil case same judge same opposing council PJ

The "intelligence community" has been using Dominion, Scorecard, etc. And companies (fronts) like SCYTL for Years to manipulate ELECTIONS overseas, and to various levels

here in the U.S. since at least 2006. ALL Approved through the FISA court.

I wonder if anyone has connected that "Chief" Justice Roberts has been "Approving" this type of Election interference personally since then? But I'm SURE he knew
