I'm not a lawyer, I'm sure someone with a better "legal mind" than me could dig on this.

An untested, un-trialed, rush development, "vaccine", that is already having very negative side effects on the people who have received it.

Was "administered" to Pelosi and Pence. [↗](#)

Number two and three in the "continuity of government" plan after President Trump.

They are strict laws governing "continuity of government" and only certain times that one and two or one two and three can be in the same place at the same time because of the danger

To the "continuity of government".

I don't believe under those rules, they could inject them with an untested vaccine into one, let alone both, of those people during an active "pandemic".

You would be risking two of the top three people in the "COG".

If the vaccine was faulty, been tampered with, anything like that you would seriously be risking the leadership of the United States.

For those reasons and many more I don't believe they're taking the vaccine. I believe it's being shown only to help calm many people.

12/ One of the best things out of @ericries's Lean Startup is the concept of "vanity metrics" - unimportant, inflated metrics that don't have much to do with business value. But the effects of using them are different when you're a startup versus a big co.

13/ For big, established companies, focusing on vanity metrics is silly but not harmful. Everyone's thrown up a huge number to celebrate for an offsite. I get it. But for startups who are pre-product/market fit, it can lead down a path towards

This latest insult, otherwise known as the "covid stimulus plan". \$600 for US citizens, much much more for illegal aliens. Billion after billion after billion for pet projects and countries overseas. I notice that the "covid money" Going overseas is "NOT FOR ANYTHING

COVID RELATED" 😏😏 For many years politicians have been handing out our tax dollars. Given to institutions for "endowment building", disguised as programs. Of course they get a percentage.

The Noose around the neck of Lady Liberty is tightening. We are down to it now. President Trump is beset on all sides by enemies, even those closest to him urging he "concede". Walk away and fight another day. All while Biden laughs, believing his "stolen victory" is inevitable.

This is "Our Test". Make no mistake, we are being tested. It may not have come the way we envisioned. Holding out, rifle in hand, steeling yourself for one final push. No, that is a test that America was built on. And because They had gone

Hmmm.. I just heard something interesting. The much touted "vaccine" is 99% Non-existent. It's a Huge money grab and a way to make President Trump (Warp speed) look like a failure. 😏 The major vaccine producers, being manipulated by the DS Dems, produced an inadequate and "dirty"

Vaccine. This was so samples could be given for testing. After billions and billions of dollars were shoved at them, they grabbed every single dollar they could, and produced garbage to make it look legitimate. Their plan was after they received

More and more "politicians" will line up for their public vaccination 😏 It's all theater, they aren't getting the vaccine. This is all a public prelude to Forcing the vaccine on people, and implementation of the required VACC card. 🙏
